Celebrating six decades of Making Cancer History, The University of Texas M.D. Anderson Cancer Center is located in Houston on the campus of the Texas Medical Center. It is one of the world's most respected centers devoted exclusively to cancer patient care, research, education, and prevention. M.D. Anderson's campus encompasses approximately 8.8 million gross square feet of owned and lease space, including an in-patient hospital with 512 beds, three research buildings, an outpatient clinic building, a faculty office building and a patient-family hotel. Over the course of the next six years, we will construct an additional 6 million square feet of new space, totaling almost \$2.4 billion in construction projects. We are growing exponentially as a result of our effort to eliminate cancer and as the number of cancer cases rises, our mission areas and our facilities will continue to expand in response to increased needs.
